Subject: how's this?

I think getting into MWs and re-developing well might be too much detail for web page...? Agreed

Did GS and DEQ do the 4 privates one water supply well? No

.....

What's New

June 2012

EPA, in cooperation with the U.S. Geological Survey and the State of Wyoming, has re-sampled two monitoring wells the Agency installed in the Pavillion area in the summer of 2010. EPA also collected samples from four private and one public water supply well. Samples were collected in April. Results will be available later this summer.
